Changes in VAT submissions

From 1st April 2010 all business with a turnover greater than £100,000 or newly registered companies now have to submit VAT Returns online.

Sage V16 has the facility to help you submit the return online, once you have run and completed your VAT Return, using one of its handy wizards.

For further advice or help using this function please [contact a member of our Sage Solutions Team](#).

SAGE health check

Good business software does more than just help you manage your accounts. It gives you the breathing space to concentrate on what's most important to you. Are you using Sage to its full potential?

Why not [ask a member of our Sage Solutions team to review your system](#). We will make recommendations on how to use Sage more effectively and provide training as required.

Management information / report designer

With the increasing need for up to date management information, we can create and design any management reports specific for your business requirements.

You can improve the way you run your business and impress your Bank Manager with an automated management report every month.

[Contact us for more information](#) and for a free demo of the report designer.
